Caiman Energy Selects ISNetworld for Contractor Management
ISN Expands Natural Gas Midstream Client Base

DALLAS, Texas (March 30, 2011) — ISN is pleased to announce that Caiman Energy has established a relationship with ISN to enhance and streamline its contractor management process.

Caiman Energy was founded in 2009 and is pursuing midstream projects in emerging resource plays throughout the United States. Caiman Energy is focused on designing, building, owning, operating and acquiring midstream assets to provide services to producers such as: natural gas gathering, compression, transportation, measurement, treating/conditioning and processing.

Vice President of Caiman Energy Operations, Curtis Clark, said the decision to use ISNetworld was part of the company's early and on-going commitment to the safety of their employees, contractors, communities and the environment. "ISN provides a robust yet easy to use contractor management database that has become the standard in the natural gas industry."

"Caiman Energy's selection of ISN is a testament to the reputation of the service and dedication that ISN delivers to our customers and to the industry," noted Jennifer Buckley, ISN Midstream Team Lead. "We are excited to see our Northeast market expand and look forward to working with Caiman Energy."

"The midstream industry is our most mature market at ISN," added ISN Senior Vice-President, Brian Callahan. "We are proud to see our business continue to grow with the industry and new companies like Caiman Energy."

About ISN

ISN provides an online contractor management database, ISNetworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 31,000 contractors and 190+ Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify contractor's self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isnetworld.com.
