To Whom It May Concern:

Bisso Marine has provided quality services to the marine and energy industries since 1890, offering marine construction, pipe laying, salvage, heavy lift and diving services. With offices and strategic alliances located across the Gulf Coast, South America, Europe and Asia, the Bisso Marine fleet is uniquely positioned to provide a full range of maritime services and emergency response across the globe.

As in all our operations, safety first is our core focus and commitment. We believe all accidents are preventable and incident-free operations are attainable. From offshore to warehouse, our motto remains consistent: "If a project can't be done safely, it isn't worth doing."

At Bisso Marine, we recognize ISNetworld's important role in helping us achieve our safety goals. ISNetworld is an effective tool that allows us to efficiently and conveniently house our health and safety data. The program is timely and user-friendly. The customer service team is extremely helpful and willing to go the extra mile to serve its customers. The technical staff is equally impressive.

It has been a pleasure to work with such an outstanding group of professionals like those at ISNetworld.

Sincerely,

Kevin M. Gilbert  
Health, Safety & Environmental Director
