

April 8, 2010

To Whom It May Concern,

Dene Sky Enterprises (2005) Ltd is a **Civil Earthworks Contractor** from Janvier, Alberta.

Dene Sky Enterprises (2005) Ltd has been a member of ISNetworld since 2008 and would offer a recommendation for their services. We truly enjoy the ease in which we entered and continue to update our information on this site. It allows us to efficiently record our health and safety information in a centralized location . Their program is very user friendly. ISNetworld allows us to provide all required documentation for our Owner Clients and makes the prequalification process easier.

Dene Sky believes that safety is a number one priority and this program helps us maintain a strong safety environment by allowing us to internally record our Corporate Health and Safety Statics and giving us access to that information at a glance.

The staff at ISNetworld is always friendly and responsive to our questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Sherri Herman", written over a large, stylized, looping flourish that extends from the left side of the page.

Sherri Herman
