## **LOGIC Services Pty Ltd – Ownership Confirmation**

To Whom It May Concern,

LOGIC Services Pty Ltd is an independent organisation owned 100 percent by its Directors and specialising in electrical and instrumentation construction projects for the oil and gas sector, mining and heavy industry.

Our experience ensures that LOGIC Services offers clients a wealth of practical, real-world knowledge and experience. The extensive operational background of the company's personnel offers an assurance of quality, and this considerable expertise brings rigorous professional perspective to all projects.

Headquartered in Perth, Western Australia, LOGIC Services has offices in Singapore and Kazakhstan, and is quickly gaining a reputation for an exceptional standard of workmanship and its ability to meet the demands of clients in a wide range of oil & gas projects. Our background revolves around hands-on project experience, with our senior management having an impressive track record of fulfilling key roles on numerous high profile projects around the world, including West Africa, Russia, China and the Far East.

LOGIC Services is pleased to announce its ongoing commitment to ISNetworld and highlight the considerable benefit ISNetworld offers in assisting us to ensure compliance with health and safety, regulatory and/or client standards.

Whilst undertaking this process to meet contractor accreditation requirements, LOGIC Services has benefited considerably from the ongoing support and guidance provided by ISN. ISNetworld has undoubtedly assisted us in maintaining a necessary focus on our procedures and practices and further secures our original goal of conformance-verification.

With LOGIC Services providing project support in a number of international locations, we feel sure that the ISN logo will further enhance our standing, providing an industry-recognised acknowledgement of our achievement in meeting our HSEQ aims and objectives. We look forward to the continued benefit of the professional support of all at ISN.
