To Whom It May Concern:

Praxair Services, Inc. has been a member of ISNetworld since 2002. Currently, our company utilizes ISNetworld to submit our health and safety information to over 30 Owner Clients as well as manage over 400 training courses.

Along with keeping our company's health and safety information up to industry standards, ISNetworld has also saved us valuable time and resources, by eliminating the need to report duplicate information. ISNetworld's user-friendly system allows our company to complete just one online questionnaire, the SCQ-V, as well as submit our safety program and training documentation in one central location in order to be compliant with all of our Owner Clients' requirements. The amount of time that Praxair Services, Inc. saves on maintaining our health and safety information far exceeds the amount of time it would take to submit our information to each of our Owner Clients individually.

Due to ISNetworld's efficiency, user-friendly functionality, and excellent Customer Service, I strongly recommend ISNetworld to any company seeking a contractor database management system. If I can be of any further assistance please feel free to contact me at (281)872-2226 or by email at Lisa_Hartnup@praxair.com.
