

ISN Software Corporation  
3001 Knox, Suite 200  
Dallas, TX 75205

To Whom It May Concern:

Since becoming a member of ISNetworld, we have been increasingly impressed with what the database has done for our company. The tools provided in our ISNetworld account have been extremely advantageous to us both economically and for best business practices.

Since our company has been affiliated with ISNetworld, we have seen a dramatic increase in business. The advantage to over 125 owner clients having the ability to search out our company for business in one setting is an unmatched marketing tool.

Thanks to the help and resources inside of ISNetworld, Pro-Kleen Inc. is now known in our industry as a leader in best health and safety practices. We not only have expanded our safety standards and perfected our safety manual; we have also started up a Safety Services Division within our company to provide Safety Services to our customers and the industry. From safety meetings to tool box talks, ISNetworld has helped bring safety to the forefront of our business.

Sincerely,

Robbie Gouge  
Accounts Manager  
Pro-Kleen Inc.
