

WATKINS CONSTRUCTION CO., LLC

P.O. Box 570 - Corsicana, Texas 75151 Phone: 903/874-6587 Fax: 903/872-7433

August 21, 2008

To whom it may concern:

Watkins Construction was one of the first members of ISNetwork, as we have held a membership since 2002. With 23 current Owner Clients, we rely on ISNetwork to ensure compliance with our Owner Client requirements and to manage Operator Qualification data. We have found that ISNetwork provides the means to efficiently satisfy multiple Owner Client's requirements, with no duplicative effort on our part.

With over 1,000 employee records in ISNetwork, we are able to maintain employee's records and Operator Qualification data with the smart, dynamic tools ISNetwork provides. The database gives managers access anytime and anywhere to employee OQ data, in-house training data, personal contact information, drug & alcohol testing data, clinical physical certificates, and drivers license information. Not only is this incredibly convenient, but we also have the capability to provide Owner Clients access to our in-house training course catalog. We track over 200 training courses in Training Manager, and this has increased our confidence and pride in our safety measures and records.

My job would be vastly different without ISNetwork; the positive impact of ISNetwork is astounding. The ISNetwork Team works closely with our company, and we appreciate their consistent customer focus, which helps us reach our goals and needs. I enjoy working with the ISN Team; they are prepared, forward-thinking, and welcoming of suggestions. We look forward to the continued growth of ISNetwork, as this improves our business and the ability to effectively manage health and safety.

Regards,

Bob Coy
