### **ConocoPhillips expands use of ISNetworld with California Refineries** *ISN Welcomes ConocoPhillips Los Angeles and Rodeo Refineries*

DALLAS, Texas (May 21, 2010) – In January 2010, ConocoPhillips Los Angeles Refinery announced their decision to use ISNetworld as their primary solution for contractor management. Adopting the same process for contractor pre-qualification, ConocoPhillips Rodeo Refinery announced in May 2010 that they will also be utilizing ISNetworld to streamline the process of tracking their vendor's health, safety, and environmental information. ConocoPhillips Rodeo is the ninth ConocoPhillips refinery to implement ISNetworld across the United States. Other ConocoPhillips business units that utilize ISNetworld for contractor management include: ConocoPhillips Canada, Lubricants, Transportation, Alaska, RM&R, Lower 48, and ConocoPhillips Services.

"We are excited about expanding our relationship with ConocoPhillips at the Rodeo and Los Angeles refineries and adding additional value to ISNetworld member contractors working in California. ConocoPhillips continues to show their dedication to maintaining a safe working environment and we are pleased to be a tool to further assist them in achieving their goals," said ISN Senior Vice President Brian Callahan. Downstream Team Manager, Kim Cravens, added "We look forward to providing the highest level of service to ConocoPhillips Rodeo and Los Angeles personnel and their contractors. This will also be of benefit to contractors who work at other ConocoPhillips refineries and the California refineries."

"Being a part of ISN allows us to ensure our vendors are meeting ConocoPhillips' criteria, as well as California state requirements," said John Driscoll, Health and Safety Superintendant at ConocoPhillips Rodeo Refinery. "It's great to have this information in one place."

"We look forward to using ISN as our key resource for assessing our Contractors' Safety Performance. The information that ISN receives, evaluates and compares to the Rodeo Refinery's criteria is essential to providing a safe work environment for all of the contractors and refinery employees at our facility," stated Ken Wilson, Contractor Safety Coordinator, ConocoPhillips Rodeo Refinery.

#### **About ISNetworld**

ISNetworld provides an online vendor management database designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 24,500 vendors and 145 Owner Clients. Through its Review and Verification Services (RAVS), ISN's subject matter experts review and verify vendors' self-reported information, incorporating a level of due diligence to the process. Vendors also use the system to manage internal training and recording keeping requirements. For more information, visit [www.isnetworld.com](http://www.isnetworld.com).
