Murphy Oil USA, Inc. Selects ISNetworld for Contractor Management *ISN expands Refining Client Base*

DALLAS, Texas (July 23, 2010) – ISN is pleased to announce that Murphy Oil USA, Inc. (Murphy) has selected ISNetworld as its solution to contractor safety management. Murphy joins Murphy Exploration and Production, who has been using ISNetworld since October 2009 to track and verify health, safety and procurement information.

With a refinery in Superior, WI and Meraux, LA, Murphy has a refining capacity of 160,000 barrels-per-day. They also operate 12 terminals throughout the Eastern United States and provide fuel supply throughout 23 states.

“Safety is a priority at Murphy and using ISNetworld will assist with standardizing our contractor safety requirements and evaluation across our Downstream operations,” said Sam Chamberlain, Director of Corporate Environment, Health, and Safety.

“We are excited to grow our relationship with Murphy Oil Corporation with the addition of Murphy’s Downstream operations,” said Brian Callahan, ISN Senior Vice President. “We look forward to working with Murphy to help them achieve their contractor management goals.”

About ISN

ISN provides an online contractor management database, ISNetworld, which is designed to meet internal and governmental record keeping and compliance requirements. ISN collects health and safety, procurement, quality and regulatory information for more than 26,000 contractors and 155 Owner Clients. Through its Review and Verification Services (RAVS), ISN’s subject matter experts review and verify contractor’s self-reported information, incorporating a level of due diligence to the process. Contractors also use the system to manage internal training and recording keeping requirements. For more information, visit www.isnetworld.com.
