### **Potash Corporation of Saskatchewan Selects ISNetworld for Contractor Management**

**Dallas, TX, December 1, 2008**– ISNetworld (ISN) announced today that Potash Corporation of Saskatchewan has selected ISNetworld as its primary tool for contractor management.

PotashCorp is an integrated producer of fertilizer, industrial and animal feed products. They are the world's largest fertilizer enterprise, producing the three primary plant nutrients – potash, nitrogen and phosphate. PotashCorp produces potash in Canada, phosphate, nitrogen and feed supplement in the United States as well as nitrogen in Trinidad. Their extended enterprise includes partners throughout the world.

ISNetworld Vice President Brian Callahan stated, “PotashCorp is one of the largest integrated fertilizer companies in the world. We are excited PotashCorp has chosen ISNetworld to assist them as they seek to enhance the vital partnership that exists between PotashCorp and the contractors its operations depend on.”

President of ISNetworld, Joe Eastin, added, “PotashCorp's extensive geographic footprint in North America overlaps in several areas with existing ISNetworld Owner Clients. With this, a number of PotashCorp's contractors are already ISNetworld subscribers. We look forward to the opportunity to serve additional contractors with the best customer service team in the industry.”

#### **About ISNetworld**

ISNetworld provides an online contractor/supplier management database designed to meet internal and governmental health, safety, and environmental requirements. ISNetworld Review and Verification Services (RAVS) validate contractor/supplier information. ISNetworld communicates health and safety standards and provides a method for subscribers to house documents, measure, compare, and benchmark health and safety statistics, and provides a method of evaluation and communication between companies and their contractors. Contractor/Suppliers also use the system to manage training and recording keeping requirements. For more information, visit [www.isnetworld.com](http://www.isnetworld.com).
