**ISNetworld Announces Launch of Verified Standardized Contractor Questionnaire (SCQ-V)**

**Dallas, TX, December 17, 2002** – ISN Software Corporation (ISN) announced today that it has completed and released its Verified Standardized Contractor Questionnaire (SCQ-V) to all ISNetworld users. The SCQ-V represents a quantum leap from existing paper and online contractor prequalification, health and safety questionnaires.

Bill Addy, President of ISN stated, “The V in SCQ-V stands for verified. We have taken the best of the industry standard questionnaires and combined them into one questionnaire that automatically incorporates third party verified data wherever possible.”

Joe Eastin, Executive Vice President of ISN added, “The SCQ-V lets contractors complete one questionnaire and lets operators create their own versions of each contractor’s questionnaire. Operators can create several versions, including Show Stoppers, Comprehensive, Procurement and Safety versions. The SCQ-V represents an additional value-added component of all ISNetworld subscriptions.”

ISN Software Corporation, through its flagship ISNetworld product, automates the relationship between contractors and their owner/operator customers in America’s most capital-intensive industrial sectors. ISNetworld utilizes third party data wherever possible to create an added level of compliance record management and reporting integrity.
