**Flint Hills Resources Chemicals, Flint Hills Resources Terminals and Reiss Remediation
Select ISNetworld for Contractor Management**

Dallas, Texas, November 3, 2008 – ISNetworld (ISN) announced today that Reiss Remediation, Flint Hills Resources Chemicals and Flint Hills Resources Terminals have selected ISN to assist in enhancing their contractor management process. They are joining other Koch Companies that currently use ISNetworld, such as Koch Pipeline Company LP, Koch Mineral Services LLC and Georgia-Pacific Corporation. Their implementation will utilize multiple facets within ISNetworld, including the ISNetworld Standardized Contractor Questionnaire (SCQ-V) and Review and Verification Services (RAVS) for safety programs.

Flint Hills Resources (FHR) is a subsidiary of Koch Industries. FHR annually produces about ten billion pounds of building-block chemicals. The Aromatics, intermediates, olefins and polymers produced by FHR are the raw materials used to manufacture items such as soda bottles, DVD's, nylon fibers, tires, carpets and many other items.

Reiss Remediation is also a subsidiary of Koch Industries, contracting with a number of Koch companies to address legacy environmental issues and manage the environmental liabilities for each of these companies.

ISNetworld Vice President Brian Callahan, commented, "We are pleased to have Reiss Remediation and FHR onboard. Koch's use of ISNetworld demonstrates their continued commitment to the health and safety of their employees and contractors."

Bonney Hodges, Team Lead of Downstream, added, "We are excited to see the Koch family and ISNetworld's relationship continue to grow. The addition of the recent Flint Hills Chemical acquisitions further expands our footprint in the chemical industry. We are honored to be working with the largest private company in America."

About ISNetworld

ISNetworld provides an online contractor/supplier management database designed to meet internal and governmental health, safety, and environmental requirements. ISNetworld Review and Verification Services (RAVS) validate contractor/supplier information. ISNetworld has standardized health and safety communication and provides a method for subscribers to house documents, measure, compare and benchmark health and safety statistics, and provides a method of evaluation and communication between companies and their contractors. Contractor/suppliers also use the system to manage training and record keeping requirements. For more information, visit www.isnetworld.com.
